

The International Test and Evaluation Association (ITEA) Scholarship

The International Test and Evaluation Association (ITEA) Scholarship is awarded to a student majoring in electrical, computer, mechanical, or industrial and systems engineering. Eligible applicants must have a cumulative GPA of 3.0, be interested in pursuing a career in modeling and simulation-related fields, and demonstrate citizenship and leadership.

The donor represents a local chapter of a professional association (ITEA) chartered in Washington, D.C. as an educationally oriented, not-for-profit technical society founded in 1980 to further the exchange of technical information in the field of test and evaluation. ITEA's members include professionals from industry, government, and academia who are involved in the development and application of policy and techniques used to assess the effectiveness, reliability, and safety of new and existing systems and products.

This scholarship is renewable for up to three additional years. The student must maintain a full-time course load (undergraduate - 12 credit hours, or graduate - 9 credit hours) each semester. In addition, recipients must complete a total of 24 credit hours (graduate - 18 credit hours) each academic year and have a cumulative GPA of 3.0 or higher to be eligible for renewal. Students should submit a scholarship application every year in order to update their files and possibly be eligible for other awards.
