TECHNICAL PAPER AND/OR TUTORIAL ABSTRACT SUBMISSION FORM

T & E in a Multi-domain Operational Environment

14 July – 15 July 2021 ~ Radisson Hotel El Paso Airport
Hosted by the ITEA White Sands Chapter

Abstracts Submissions due 31 March 2021

All sessions will be unclassified and open to the general T&E community. Abstracts will be reviewed for a presentation during a session or as a poster paper. Abstracts should be noncommercial in scope, pertinent to technical topic, no longer than 500 words and releasable to the public. Please advise us if your abstract cannot be posted prior to the workshop. Once abstracts are accepted, authors will be notified and will be given the contact information for their Session Chair. Authors can choose to write a paper and present or abstain from writing the paper and make a presentation only. *If required by your organization, please start your internal release process as soon as possible.*

Presentations at ITEA events should:

- Contribute technically sound knowledge in a particular area of test and evaluation;
- Present new knowledge or experience that has not been published previously; and,
- Not be commercial, marketing, or "infomercial" in nature. The presentation's introductory slide is the only slide that may contain the presenter's company name and/or logo. Presentations that promote specific companies, organizations, products, or services are reserved for the Exhibit Hall or Vendor Track Sessions, and strictly prohibited in Pre-Workshop sessions (including tutorials, demonstrations, and other presentations), and the Workshop Plenary and Technical Track sessions.
- **Tutorials** are typically scheduled for either a half-day or full day, should include comprehensive presentations on well-established topics, and may include hands-on exercises on using various software and/or hardware tools.
- **Technical Track Session** presentations are shorter than tutorials and usually last 20 minutes, with an additional 10 minutes for questions. Technical Track Session presentations give quick holistic overviews of interesting emerging topics with a concentration on fundamentals and projection about the future of these topics.
- **Poster Presentations**, usually displayed in the Exhibit hall, are designed to present Works-in-Progress, new ideas, and emerging fields and research topics in test and evaluation. Poster presenters are expected to bring their printed poster and handouts, and to be present during scheduled times for the Poster Presentation session(s). Attendees will browse the posters and directly interact with the presenters. Thus, the poster session is intended to be an informal, conversational forum for new ideas.

Abstracts must be submitted to MDO@itea.org

Please Note: If you would like to also submit a paper for consideration for publication in *The ITEA Journal of Test and Evaluation* you will need to prepare a full manuscript that adheres to the Journal guidelines. This form <u>DOES NOT</u> take the place of the COPYRIGHT Agreement and Release Form that are required when submitting a paper for consideration for publication in *The ITEA Journal of Test and Evaluation.* Please contact us at Journal@itea.org if you have any questions, or if you are interested in submitting your paper to The Journal. For the guidelines please visit https://www.itea.org/submissions/

TECHNICAL PAPER AND/OR TUTORIAL ABSTRACT SUBMISSION FORM

T & E in a Multi-domain Operational Environment

14 July – 15 July 2021 ~ Radisson Hotel El Paso Airport

Hosted by the ITEA White Sands Chapter

Please save this completed form as "LastName_FirstName_PresentationTitle" and send to MDO@itea.org

Please check the following box if applicable:

☐ *DO NOT include my presentation as part of the Workshop's online proceedings.*

Submissions Due: 31 March 2021

This abstract is being submitted for consideration as a:	☐ Pre-Workshop Tutorial ☐ Technical Track Session ☐ Poster Paper
Topic Area: *(Check all TOPICS that your presentation would address)*	☐ Cyberspace Test Technology ☐ C4I and Software Intensive Systems ☐ Distributed Testing ☐ Modeling and Simulations ☐ Autonomous System Test ☐ Hypersonic System Test ☐ Directed Energy ☐ Spectrum ☐ Advanced Instrumentation Systems ☐ Enabling principals in support of executing a Multi-Domain Operational environment ☐ See **Call for Papers** for COMPLETE list of topics ☐ Other: _____
