

## DAN OSBURN

Mr. Dan Osburn is the Senior Technical Director, 412th Test Wing, Edwards Air Force Base, California. He executes technical oversight of the wing's 7,200 personnel in the developmental test and evaluation of B-21, KC-46, F-35, F-22, F-16, B-1, B-2, B-52, C-17, C-130, KC-135, Global Hawk, joint remotely piloted aircraft and emerging technologies. Additionally, Mr. Osburn is responsible for establishing and maintaining policy for systems engineering, workforce management, and T&E processes.

Mr. Osburn has 11 years in industry aircraft design at Northrop Grumman and Lockheed Martin Skunk Works on B-2, F-18E/F, X-35 Concept Demonstration Aircraft, and other Special Projects before joining the Air Force Civilian work force in May 2000.

He served in many engineering capacities as C-17 Chief Systems Engineer, Electronic Warfare Flight Chief, F35 Chief Engineer 461st Integrated Test Force (ITF), Deputy Director F35 461st ITF, and 773rd Test Squadron Director of the 412th Test Engineering Group.

Prior to his current assignment, Mr. Osburn served as the 412th Test Engineering Group Director responsible for an annual \$140M budget with 980 combined military, civilian, and support contractor personnel for the research, development, test and evaluation of airframe, propulsion, and avionics systems. Additionally, he was in charge of test aircraft instrumentation development, operations and maintenance and the Edwards AFB range.
